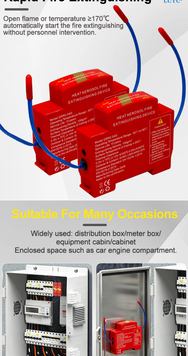
Automatic Induction Rapid Fire Extinguishing

Open flame or temperature ≥170℃ automatically start the fire extinguishing without personnel intervention.



Suitable For Many Occasions

Widely used: distribution box/meter box/ equipment cabin/cabinet
Enclosed space such as car engine compartment.

Name:	**Shell Temperature Resistance:**
Aerosol Fire Extinguishing Agent	<200℃
Fire Extinguishing Dose:	**Fire Extinguishing Degree:**
10g/20g/30g/40g	100g/m³
Operating Temperature Range:	**When to Extinguish the Fire:**
-50℃~ +90℃	Open flame or temperature ≥170℃

2 kinds Installation Methods

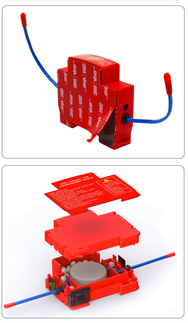
1.Paste installation 2.DIN installation

Paste Installation Method

Paste directly, simple operation

Double Spout Design + Lengthen the induction line

The smoke quickly spread to all corner, quickly extinguish the fire



Fully automatic Induction Fire Extinguishing

Open flame or temperature ≥170℃ automatically start the fire extinguishing without personnel intervention.

Product Real Shot
